Doing More With Less! More Impact without Adding More Projects

How?

Through partnerships, connections, collaboration, shared volunteers, and resources... in other words, by connecting our strengths.

Dear Community Leaders,

On the morning of May 14th, the organizations and associations that serve West Sacramento residents will come together to strengthen our connections and leverage our abilities. You are receiving this because you and your organization are important to West Sacramento.

On May 14th we will:

1. ENTER A NETWORK TO SHARE INFORMATION.
2. BUILD RELATIONSHIPS TO COORDINATE RESOURCES.
3. EXPLORE STEPS TO MOVE FORWARD.

We want to develop our relationships in order to find opportunities to build bridges and share resources to make our work easier and to create a stronger West Sacramento. This is not about more or new projects to add to everyone's busy schedules; it is about more effective and efficient partnerships that enhance our community's quality of life.

We will also assess interest for future collaboration to coordinate our efforts, put together a master calendar of events for 2011-2012, create a listserv for future communication, and more.

We hope you and your colleagues will join the other leaders from community organizations working in West Sacramento to make this partnership meeting a success!

SCHEDULE: 9 am – Noon

- Registration and networking opportunity, with pastries, fruit, coffee, juice
- Introductions: Who? What is your organization good at? What is your group interested in?
- Table discussions: Opportunities to leverage our work to make it easier and more effective (e.g. common projects, communications infrastructure, resources)
- Break and networking opportunity
- Moving forward
