

West Sacramento

# LEVEE IMPROVEMENT PROGRAM

The big picture

***Tuesday, April 27, 2010***

***6:00 pm***

***City Hall Galleria***

The City of West Sacramento and the Bryte and Broderick Community Action Network are co-sponsoring a community presentation on the West Sacramento Levee Improvement Program.

This will be an excellent opportunity to learn about the status of the overall program, the draft environmental impact report that is available for public comment, two levee improvement projects that will begin construction in 2011, and other aspects of the program.

City and consultant staff will present information and be available to answer questions.
